

SIGMA instructions for managers to display listings supervised theses and tutored

SUPERVISORS AND TUTORS

Once that the PhD student has done the registration of the first academic year in Escola de Doctorat and the data has been introduced in our computer application SIGMA (data like: tutor details, student details, supervisor/s, provisional title of the thesis in three languages and dedication (TC or TP)), the teachers can have the information of the thesis that they supervise and tutorise.

Connection on the web: <http://sia.uab.cat>; Menu for PDI: sigm@-CDS; Identification: NIU and password. Choose the option/profile: => CDS: Professorat
Left Menu: pick => Tesis dirigides i tutoritzades

This print screen shows the option to display the list of the students who the supervisor/tutor are supervising and/or tutoring.

Appear all theses that have ever supervise/tutorise of all decree that role the doctorate, whether they are defended as outstanding defense.

The management of the research plan and activities can only be done for the PhD students of the RD 99/2011. For the doctoral students of another RD, it is only possible to access to the information (appears the icon of Query), and for this ones it is not showed any information in the field "fecha máxima de finalización de la tesis" (maximum deadline for thesis ending) because it can't be apply the term counter.

For every PhD student of RD 99/2011 the professor has two options:

- The icon of : to see the information recorded about the thesis and download the files associated with the research plan and the training activities. No permite gravar ningún cambio que se haya hecho en la información.
- The modification icon for including the information and the files in the research plan and accept, validate and deny the activities that the PhD student has informed according with the agreed work plan, and record the changes that have been made.

When there has been a modification of the information that was already registered in the Inscription and monitoring, a marker appears to clearly visualize changes have been made.
