ACADEMIC YEAR 2018-2019

Open Data / Open Access policies: Implications in research - Conference

Date: 20/09/2018, from 10 to 13h.
Venue: Sala d'Actes del Rectorat
Idioma: Spanish / English
Addressed to: P-Sphere fellows, postdocs and predocs

Programme

10:00 to 10:05 Welcome by Javier Lafuente, Vice-Rector for Innovation and Strategic Projects.

10:05 to 10:50 The UAB Data Protection Office and the Open Science policy, by Jordi Hernández (Rector's Commissioner for ICT), Agustí Verde (Data Protection Officer) and Xavier Rubiralta (IT Responsible for Data Protection). Spanish.

11:00 to 13:00 Data Management, by Dr. Pilar Rico (OpenAire project) English.

1. What are open access policies and why is this new way of communicating our research results being imposed?

2. National and European legal framework and specific obligations for the beneficiaries of the State Plan and H2020:

   - Scientific publications: when and where to publish research articles in open access
   - What to do with research data
   - The Data Management Plan, what it is and how to do it
   - Resources and infrastructures for open access publishing

3. The importance of open access in the preparation of H2020 proposals

Registrations here.

Materials

- Getting our Services Ready for Open Access, by Jordi Hernández
- General Data Protection Regulation, by Agustí Verde and Xavier Rubiralta
- Open Access Policies to Publications and Research Data, by Pilar Rico

Open Access Publishing

In the Open Access Week, this course aims to show the range of possibilities that researchers have to maximize the visibility of their research after its publication in open access. It is addressed to early stage researchers interested in knowing the different options and the benefits of open access publishing.

Programme

- Open access: what is it? benefits, liabilities, open science
- Open access publishing: what to do before publishing your article, self-archiving policies, research data, data management plan, DDD (UAB Digital Repository)
- Identification Systems: digital identity, author identification systems, ORCID, Scopus-ID, Researcher-ID (WoS), Google Scholar Citations.
- Social media: academic social networks
- Recommendations and good practices

SESSION 1
Date: Monday 22th October 2018, from 10 to 11.30 h
Venue: I0/328 *Sala de Graus de la Facultat de Ciències de la Comunicació*
Language: Spanish
Trainer: Cristina Azorín
Registrations: http://www.bib.uab.cat/formacio/inscripcio.php?id=5323

SESSION 2
Date: Tuesday 23rd October 2018, from 17 to 18.30 h

Lego® Serious Play®

Date: 26/11/2018 from 09:00 to 14:00h.
Place: Room 1, Doctoral School
Language: Spanish
Trainer: Teresa Guix (Co-empren)

The seminar " Lego Serious Play " aims to foster creative skills and the ability to solve complex issues, individually and in a collaborative way. The Lego® Serious Play ® methodology will be taught, as well as its possible uses.

For more information and registrations visit the Aula Moodle.

Co-creation & Design Thinking

Date: 6/11/2018 from 09:00 to 14:00h.
Venue: Room 50, Aulari Central (Building J)
Language: Catalan

Trainer: Teresa Guix (Co-empren)
Addressed to: early stage researchers

The seminar "Co-creation & Design Thinking" aims to foster creative skills, individually and in a collaborative way, in order to boost an entrepreneurial attitude.

For more information and registrations visit the Aula Moodle.

Presenting Research

Date: from the 5/11 to the 5/12, Mondays and Wednesdays from 10:00 to 12:00h.
Venue: Room 24, Aulari Central (Building J)
Language: English
Trainer: Silvia Solà
Addressed to: early stage researchers with an accredited B2 level in English

The Doctoral school organises, together with the Languages Service, this course aimed at strengthening researchers' skills for presentations in English in working sessions, workshops, seminars and conferences. Participants will learn to control anxiety and nerves before a presentation, to choose and organize contents to make an interesting and persuasive oral presentation and to adapt their discourse to the public. They will also learn to develop and use a script and other support systems for the transmission of content (PowerPoint or Prezi), to express themselves naturally and to manage the questions of the audience. The course also focuses on aspects such as register and linguistic correction.

How to design and defend your PhD with the Idea Puzzle® software

4th edition
Date: 12/12/18 from 14:00 - 16:00
Venue: Sala de Graus, Doctoral School
Language: English
Trainer: Ricardo Morais (Idea Puzzle)
Addressed to: early stage researchers and supervisors

The Doctoral School organises the 4th edition of this seminar where the use and possibilities of the Idea Puzzle® software will be explained. This sofware is thought to design, diagnose and defend research projects. It constitutes an investment in life-long research skills.

Contents:

1. Research as a system of 21 decisions
2. Theoretical decisions of your research
3. Methodological decisions of your research
4. Empirical decisions of your research
5. Rhetoric decisions of your research
6. Authorial decisions of your research
7. Application to participants' research with the Idea Puzzle® software

Gender Perspective in Research

Date: 05/12/18, from 10:00 to 14:00
Venue: Room 5, Doctoral School
Language: Catalan / Spanish
Trainer: Mª Isabel Ponferrada
Addressed to: early stage researchers

The Doctoral School organises, together with the Observatory for Equality, the course "Gender Perspective in Research". The course will enable researchers to embed gender equality in their own research proposals, as well as training their ability to review research proposals from a sex-gender perspective.

The Doctoral Studies as a formative process

Doctoral School of UAB promotes the opportunity to acquire transferable skills during the training period of the PhD programme. In this context, each academic year the Doctoral School organizes a session addressed to first year PhD students.

The Lecture of this session is focused on the importance of ethics in research and the Code of Good Practice of the UAB.

In this session, additional information about some aspects of interest for the new PhD students will be introduced.

Welcome session for new PhD students. Academic year 2018-2019

Thursday 31st January 2019, 11:00 a.m.
Venue: Auditori de la Facultat de Filosofia i Lletres

Programme

11:00 h. *Welcome* by Dr Armand Sánchez, Vice-Rector for Research and Transference.

11:15 h. *The EURAXESS initiative and the European charter for researchers*, Dr Begoña Miñarro, Project Manager of Strategic Projects.

11:30 h. *The web page of our Doctoral School, introduction to the Sigma platform and the portfolio*, Ms. Carme Tost, Head of the Technical Unit of the Doctoral School.

11:45 h. *The Code of Good Practices in the UAB Research,* Dr José Luis Molina, Professor of the Department of Social and Cultural Anthropology and President of the Ethics Committee

on Animal and Human Experimentation (CEEAH).

12:45 h. *Introduction to the UAB Ombuds Office,* Dr Manuel Gerpe, Ombuds Officer at UAB.

13:00 h. *Introduction to Xarxa Alumni and to Community Involvement Activities*, Dr Sara Moreno, Vice-Rector for Students and Employability.

The speeches will be delivered in Spanish and the slides will be in projected in English.

Information resources for PhD

The Doctoral School organises, together with the Libraries Service, this course that offers an overview of the main resources of bibliographic information, both contracted and open access, informing about the search strategies, contents, alerts, possibilities for storage and export of results.

Contents

1. The need for information
2. Development of a search strategy
3. Defining the subject of our research
4. Evaluation of results
5. The UAB libraries' browser
6. Internet Search
7. Databases

Dissemination of Science

Date: from the 14/01 to the 28/01, Mondays and Wednesdays from 17:00 to 19:00h.
Venue: Room 24, Aulari Central (Building J)
Language: English
Trainer: Servei de Llengües
Addressed to: early stage researchers

The Doctoral School organises, together with the Languages Service, this course aimed at the production of texts for scientific dissemination, both oral and written, to learn how to use plain language to reach non-specialised audiences. Attendees will learn to adapt the content to the audience, the register and the pitch; to choose the appropriate words; to manage the redundancies and the words of transition; to control the negative and affirmative modalities of the speech in order to achieve maximum clarity; to properly manage the emergence of known and unknown information; to foster a good thematic progression; to determine the lengths of the sentences and the paragraphs to build them appropriately and to foster the comprehensibility

and readability of the text, among other aspects.

Responsible PhD: Integrating Responsible Research and Innovation in PhD Research

Date: 25 & 26/02/19 from 9:00 to 13:30
Venue: Room 50, Aulari central (Building J)
Language: Spanish/Catalan. Materials: English
Adresssed to: PhD students at the beginning of their PhD project.

This seminar will introduce PhD students to different concepts of Responsible Research and Innovation (RRI) and initiate deliberation on how to make a PhD research project more responsible. Students will read about and discuss several concepts of RRI in groups and then apply them to concrete case examples of R&I processes. Furthermore, participants will introduce their own PhD research projects or first project ideas and identify possibilities to make them more responsible by using various concepts of RRI.

Intellectual Property in the Thesis

The Doctoral School organises, together with the Libraries Service, this course that has a two-fold aims: on one hand, to provide an overview of different aspects that the PhD Candidates need to take into account in order not to violate third parties' rights when writing the thesis; and, on the other hand, to explain that they must publish their thesis dissertation in the institutional repository, as stated in the Article 14 *Assessment and public dissertation of the doctoral thesis of the Royal Decree 99/2011 of 28th January, which regulates official doctoral studies*. The course is addressed to early stage researchers. Industrial property will not be addressed at this course.

Contents

- Defining "author"
- Attribution of rights. Copyright and exploitation and patrimonial rights
- Transfer of rights. Creative Commons Licenses
- Public domain materials
- Respect third parties' rights
- Thesis dissertation in TDX and DDD
- Interesting resources

Risk management in the laboratory

Date: 08/04/2019, from 10:00 to 12:00.
Venue: Room 1+2, Doctoral School
Language: Spanish
Trainer: Manuel del Pino

Addressed to: early stage researchers from scientific fields

The Doctoral School organises, together with the Risk Prevention Service, this course aimes at informing and rise awareness about the most common risk factors for human health and safety in the laboratories by training in risk detection and protection systems. The risks associated with experimental projects will be assessed.

Aims

- To identify the most common risks in a laboratory.
- To know the most common entry channels of chemical contaminants and biological agents.
- To know the most common protection systems in the laboratory. Fume hoods, biological safety booths, individual protection equipment.
- To learn tools for a qualitative risk assessment.
- To raise awareness about preventive culture.

Research Papers

Language: English
Trainer: Servei de Llengües
Addressed to: early stage researchers with an accredited B2 level in English
Aim: Improve the writing of scientific papers in English

The Doctoral School organises, together with the Languages Service, this course on one of the most common sorts of discourse in scientific communication, the scientific paper. The participants develop and consolidate the necessary skills to write scientific papers in English. The course addresses aspects related to the standardized structure of papers (introduction, methodology, results, discussion, conclusions) and the formal and discursive characteristics

that these parts must have. Questions related to English vocabulary and correct grammar and syntactic structures when writing papers are also addressed.

<u>Humanities field</u>

Date: from the 22/05 to the 26/06, Mondays and Wednesdays from 17:00 to 19:00h. (On Mondays 10/06 and 24/06 there will be no lesson)
Venue: Room 44, Aulari Central (Building J)

Critical Thinking

Date: 09/05/19 from 10:00 to 14:00
Venue: Room 3, Doctoral School
Language: Spanish
Trainer: Carme Ruíz, Department of Applied Pedagogy
Adresssed to: early stage researchers

This course aims to:

- Provide knowledge, methodologies and resources that favour critical thinking within research.
- Reflect on the role of this competence in the context of research.
- Know self-assessment tools of this critical thinking skill.

Technology-Based Intellectual property: A practical approach to the use of patents, know-how and utility models

Date: 19th June 2019, from 10 a.m. to 12 p.m.
Venue: room 1+2, Doctoral School
Language: English
Trainer: Xavier Vallvé, Head of the Office of Patent Valuation UAB
Addressed to: early stage researchers from scientific and technological field

This seminar provides a theoretical overview of patents, know-how, and utility models. At the end of the session, the trainee researchers will acquire basic knowledge about how to protect research and how to manage patents.

Before the session, it may be required to watch some videos explaining theoretical concepts. The seminar is organized by the Office of Patents Valuation, as part of the transferable skills training organised by the School of Doctoral Studies.

Topics

- Uses of Technology-based Intellectual Property (or how to become a smarter researcher).
- Patents: Requirements and exclusions, structure, prosecution, and infringement.
- Utility models.
- Know-how: when to keep information confidential and comparison with patents.
- Patent information: how to take advantage of research patented by others, and multiple uses of using patent databases.
