#### General process:

1) A written report, report from the director, and document of activities are delivered by the indicated dates. 2) An oral report is given by the PhD student to the follow-up evaluation panel appointed for this purpose and made up of 3 researchers from the field of language and literature teaching. The event will consist of a 7-minute oral presentation by each student, followed by time for Q & A, discussion and reflection with the other participants of the panel (doctoral students and panel research members). **The principal supervisor will send their report separately to melindaann.dooly@uab.cat before the date of the panel (pdf format, entitled: report\_director\_cognom of the doctoral candidate).**

#### Report from the director

##### Aims:

The purpose of the evaluation panel is not to emit any qualification of the thesis. The evaluation panel members will provide immediate recommendations and observations related to the doctoral research to the candidate and based on the written and oral reports, will provide a report suggesting that the doctoral candidate is either progressing adequately or, **to the contrary will be recommended for a 3rd (and final) evaluation (date to be determined).**
