The achievement of the objectives of the doctorate study by the students will be accredited by the oral presentation (15 minutes) of an ANNUAL REPORT by the PhD student to the Follow-up Commission appointed for the purpose and constituted by 3 professors from the ambit. The emphasis of the content of the follow-up report in each of the years will be different. The planned sequence (guidance) for each year is as follows:

1. First year: presentation of the thesis project.

Other documents: Director's report, Document of Activities carried out.

2. Second year: presentation of progress.

Other documents: Director's report, Document of Activities carried out.

3. Third year: presentation of provisional results.

Other documents: Director's report, Document of Activities carried out.

The Commission will issue recommendations and suggestions related to the thesis research and will propose, or not, that the student access the following year of the thesis, delivering a report to that effect. In the event that the annual evaluation report is negative, the Commission, if it considers it appropriate, may establish the possibility of a re-elaboration of the report by the PhD student: / a and his subsequent face-to-face defence.
